## PROFILE SUMMARY

Aspiring Full Stack Developer currently pursuing B. Tech in AIML. Skilled in HTML, CSS, JavaScript, and MERN stack. Passionate about building web applications and solving real-world problems. Eager to learn new technologies and gain practical experience through internships.

---

## PROJECTS

### Resume Analyzer (MERN Stack)

- Developed a full-stack Resume Analyzer web application using MERN Stack (MongoDB, Express.js, React.js, Node.js)
- Implemented resume parsing and keyword extraction to analyze candidate profiles
- Built keyword-based matching system to compare resumes with job descriptions
- Designed a responsive and user-friendly UI using React.js
- Integrated backend APIs for data processing and **analysis**
- Improved resume quality by providing real-time suggestions and feedback
- Used REST APIs, JSON handling, and basic NLP concepts
- GitHub: <https://github.com/Komal0124-byt>

### Scam Shield (Web Security Projects)

- Developed a web-based system to detect scam messages and malicious links
- Implemented pattern recognition and validation logic using JavaScript
- Built backend functionality to analyze suspicious URLs and text data
- Designed a simple, clean, and user-friendly interface

- Applied basic cybersecurity concepts to identify phishing and fraud patterns
- Improved user safety by providing real-time alerts and warnings
- Used input validation, string matching, and logic-based filtering techniques
- GitHub: <https://github.com/Komal0124-byt>
